

UCI Track Masters World Championships Photography

by Mike Gladu and Steve Walton

Digital images are now available for purchase from Track Masters in Manchester. Competitors were photographed in ALL their events - qualifying and early heats for everyone, and into the finals for the lucky ones.

Your images will be selected from the thousands that were shot by both photographers, then packaged and delivered on a convenient CD or DVD-ROM disk. The digital image files can be sent to media, sponsors, family and friends over the Internet, or you can make prints if you wish - at home, or anywhere digital enlargements are made.
